SPONSOR COMMENTS:

I worked with Chris primarily in his role as Color Guard Caption Head for the Syracuse Brigadiers Drum and Bugle Corps during our successful DCA Championship years. As the creative force behind the guard equipment writing, flag design - Chris brought a sense of professionalism and excellence toward which all could aspire. His sense of musicality and creativity in his equipment writing was a hallmark of the Brigs' guard. He was always collaborative in his work with other members of the staff and his good humor and interpersonal skills allowed others to share in the guard's success. Low key, yet always demanding of excellence and striving for the highest level of achievement, Chris encouraged the guard members to reach their potential and exceed expectations both in terms of on-field performance and as members of the Corps.

As the Brigs' Visual Designer and Staff Coordinator, I could not have found a better or more competent person to head up our Guard Caption. He was always easy to work with and always delivered a great product.

Without question, this is a person of quality that has the demonstrated achievements worthy of a World Drum Corps Hall of Fame Member. I enthusiastically endorse his nomination for induction.
